PERSONAL PROJECTS

1. Ecommerce

- I build this ecommerce project using Next Js, Sanity.io, Stripe, Advanced-React such as Folder and file structure, hooks and refs. Advanced State Management of the entire application using React, Context API, and the complete integration with Stripe so that i can cover REAL payments.

2. Netflix

- This project is a Clone of Netflix, in this project I used React, JSX as a front end and Nodejs as a backend.
- Routing
- Hooks
- Bootstrap

3. React Blog App (08/2022 - 09/2022)

- A blog page which has different blogs on different categories like sports, Hollywood etc. Using React as a front end and node.JS as a backend.

4. Library

- This Library Project I created using React js. in this project we can add books name author name and store it to Local storage, with Lottie files.

5. Digital Clock

- I made this using HTML, CSS and JAVASCRIPT, the digital clock is used to fetch the IST and change the images according to the current time.
